

Volume LTL rate program

A competitive LTL program to help you save money

Does your shipment qualify for the LTL program?

To qualify for our LTL volume rate program, your shipment must pick up in Ohio or drop off at our Grove City, Ohio dock.

Ready for a better solution to generate cost savings for your volume LTL needs?

At FST Logistics, we provide an all-in-one, easy-to-understand, fixed-rate solution for dry and reefer volume LTL shipments.

Here's how our volume rate structure works

- It's a three-tier program that provides a savings for the larger, volume size LTL shipments that normally ship at a truckload rate.
- Our volume rates are predictable—the only variables are fuel and accessorial charges.
- There are no linear foot or cubic capacity pricing surprises.
- We can deliver dry and reefer freight to any of the lower 48 states in the U.S.

Our three-tier program parameters
